

eCaseLink.Me

Configurable Patient Reported Outcomes System

DSG's eCaseLink.Me is a highly affordable and proven web-based outcomes solution that patients may personalize to suit their own preferences.

Flexible Online Patient Access to Questionnaires

eCaseLink.Me provides a flexible approach to patient-reported data capture. eCaseLink.Me can be used alone or in combination with eCaseLink EDC software for reporting and data analysis. Saving valuable time at the site, eCaseLink.Me helps get data to clinical researchers faster. Designed with the patient in mind, eCaseLink.Me allows patients to personalize and change the appearance of the application to better suit preferences. It works on any browser or web-enabled device, so that patients may enter data conveniently from any wifi-enabled location – no need for unfamiliar devices. Save time and money with lower support costs and no device provisioning costs.

- Automated emails, text message reminders and alerts
- Time-controlled log-in
- Patient-configurable user-interface
- Dynamic/conditional release of questions
- Validated questionnaires and scales
- Wholly intuitive, no patient training required
- Extremely rapid start-up time
- Works on any web browser
