FOR IMMEDIATE RELEASE

DSG ATTENDING OUTSOURCING IN CLINICAL TRIALS CONFERENCE IN BURLINGAME, CALIF.

MALVERN, Pa., Feb. 12, 2018 – DSG, Inc., a leader in [eClinical](#) software and services to the life science industry will be attending the Outsourcing in Clinical Trials, West Coast (OCT) Conference in Burlingame, CA. The conference will be held from February 21-22, 2018 at the Hyatt Regency San Francisco Airport.

For 10 years, Arena International’s flagship Outsourcing in Clinical Trials West Coast conference has drawn more than 700 clinical professionals from the Bay Area and beyond, to discuss clinical outsourcing strategies and overcome key challenges within clinical operations. The event will feature 3 new tracks on clinical innovation, data driven approaches and early clinical phase developments.

“It is a great opportunity to discuss with attendee’s their emerging needs and trends determining the future of upcoming clinical trials,” said Jack Minster, vice president of sales at DSG. “I look forward to learning about the critical and evolving needs of clinical experts in attendance.”

To see upcoming conferences DSG will be attending, or to schedule a meeting with one of DSG’s experts, please visit, <http://dsg-us.com/dsg-events.html>

DSG invites attendee’s to meet with Jack Minster and Eric Wong, Director, Enterprise Software Sales in Burlingame, CA. Jack and Eric will be available at booth #17 to discuss DSG’s eClinical software and capabilities across the clinical trials industry, as well as their expertise in multiple clinical-trial areas including Risk-Based Monitoring, Data Management, Drug Safety, EDC, eCOA, IRT and CTMS, all which DSG offers as an integrated offering through full-service or through technology transfer, designed to reduce cost and increase clinical trial efficiency.

About DSG

DSG is a founder of the eClinical industry and through its innovative technology helped shape the current eClinical landscape. Its solutions support the development of life saving drugs and therapies and DSG was one of the first companies to deploy proprietary eClinical products. DSG’s suite of award-winning solutions includes its flagship eCaseLink™ EDC, Risk-Based Monitoring, eSource, ePRO, IRT Randomization and Trial Supply Management, Drug Safety System, and CTMS. Founded in 1992, the company is proud to be recognized as the first provider of a fully integrated EDC and IRT Randomization and Clinical Supply System with the SCDM Data Driven Innovation Award.
