

## About DSG

DSG, Inc. is a leading global eClinical provider with a fully unified suite of innovative technology solutions and data management services for the global clinical research community. DSG's eClinical software platform provides competitive advantage that is cost-effective with on-time project delivery. DSG solutions have been used in thousands of clinical trials around the globe with our award-winning eCaseLink™ platform and eCaseLink Designer for enterprise licensing. Founded in 1992, the company is proud to be recognized as the first provider of a fully integrated EDC and IRT Randomization and Trial Supply Management system with the SCDM Data Driven Innovation Award.

eCaseLink™ .Me ePRO/eCOA

Patient-centric data capture is easy  
and cost-effective with eCaseLink.Me

eCaseLink.Me ePRO/eCOA

## Flexible and easy-to-use

electronic patient reporting with DSG's eCaseLink™.Me.

eCaseLink.Me provides a flexible and convenient approach to patient-reported data capture. eCaseLink.Me can be used as a stand-alone application or in combination with eCaseLink EDC software, for reporting and data analysis, saving valuable time at study sites. It also ensures that data gets to clinical researchers faster for analysis and follow up. With its patient-centric design, eCaseLink.Me allows clinical study participants to personalize and change the appearance of the application to better suit preferences. It works on any browser or web-enabled device, so that patients may enter data conveniently from any Wi-Fi-enabled location – no need for unfamiliar devices. Save time and money with lower support costs and no device provisioning costs.

Flexible and Convenient  
Patient Data Capture

## Today's trials with today's technology

DSG was a pioneer in eDiary technology and among the first to provide study sponsors and CROs with Palm® hand-held devices. As technology has evolved, DSG has remained ahead of the curve for your ePRO/eCOA environment, including bring-your-own-device (BYOD) and the ability to collect data on wearable, hand-held or tablet devices. eCaseLink.Me provides:

- Integration with medical devices, EDC, labs and other streams
- Improved data quality and patient engagement
- Fully responsive (VAS) pain-rating scales
- Real time data access for monitoring possible issues before they occur
- Highly skilled experts as your partner in clinical trial design and execution
- Multi-lingual capabilities

## Simplifies data collection and minimizes study risk.

A patient-centric study design is a must-have when using the latest ePRO/eCOA offerings. DSG's proven experience gives you a trusted partner from design to deployment to submission. Meaning your trial runs fast and most of all is simple to use for study participants. With DSG eCaseLink.Me you can be assured of:

- Rapid solution development with library of standard designs
- Dedicated patient devices that are intuitive, portable, and secure
- Adaptability for various patient situations
- High compliance among participants

A flexible  
intuitive patient-  
configurable  
User-interface  
that requires  
no training

## eCaseLink.Me up and running in days, not weeks

Your patient questionnaires are created quickly with ease of change management. DSG is your trusted and transparent partner from design to submission.

eCaseLink™.Me  
advantage

### FLEXIBLE AND DEPENDABLE

- ISO 27001 : 2013 Certified
- Patient-configurable user-interface
- Works with any web-browser
- Automated email, text message reminders, and alerts
- Time-controlled sign-in
- Dynamic/conditional release of patient questions

### FAST AND EASY-TO-USE

- Rapid start-up and deployment
- Intuitive design, no patient training needed
- Multiple devices supported including tablets, smart-phones, desktops, and laptops

### CUSTOMER SUPPORT

- The finest technical support team available in the industry
- 24/7/365 on-call in-house experts with years of deep problem-solving experience
